👤 PROFILE

Full Stack Developer with 3 years of experience in building scalable web applications and backend systems using **React, Node.js, Express.js, Java, and Spring Boot**. Skilled in designing and developing **RESTful APIs**, implementing secure **authentication**, and **integrating third-party services**. Proficient in working with relational databases like **MySQL for schema design**, query optimization, and **transaction handling**. Experienced in writing unit and API tests using tools like **Jest and JUnit**, and well-versed in **version control with Git**. Adept at delivering end-to-end solutions across **frontend and backend** with a strong focus on performance, scalability, and clean code practices.

★ PROFESSIONAL SYNOPSIS

- Proficient in developing **single-page applications (SPAs)** using **React.js (16.8+)**, focusing on performance, scalability, and responsive UI/UX.
- Skilled in **state management** using **Redux Toolkit (RTK)** and modern **JavaScript (ES6+)** features.
- Experienced in building **RESTful APIs** using **Java Spring Boot** and **Node.js (Express.js)** for scalable server-side applications.
- Proficient in **database design and optimization** with **MySQL**, including schema design, query tuning, and transaction management.
- Skilled in **Spring Boot with JPA/Hibernate** for ORM and seamless integration with relational databases.
- Strong knowledge of **Spring Security & JWT** for authentication, authorization, and role-based access control.
- Experienced in **unit testing and API testing** using **JUnit & Mockito (Java)** and **Jest (JavaScript)** to ensure reliability and maintainability.
- Skilled in configuring **routing, middleware, and request handling** in both **Spring Boot** and **Node.js** to manage multiple endpoints.
- Proficient in integrating **RESTful APIs and third-party services** to enhance application functionality.
- Experienced in **debugging, performance optimization, and maintaining clean coding standards** across frontend and backend.
- Proficient in **Git version control** and Agile methodologies for collaborative software development.

📁 PROFESSIONAL EXPERIENCE

Software Engineer <i>HCL Technology</i>	2022 – 2024 Pune, India
Web Developer <i>Axolotls Innovative Technologies</i>	2021 – 2022 Pune, India

SKILLS

Programming Languages — HTML | CSS | JavaScript | Java | bootstrap | Node.js | Springboot
| JPA | ReactJS | Express.js | Redux | JSON | SPA

Software Development Skills — Microservices Architecture | RESTful APIs | JPA | Unit
Testing (JEST) | Version Control (Git)

Integration — Stripe | Google Map API | Twilio | WhatsApp | MYSQL | Third Party API

Project Management — JIRA | Git | Critical Thinking | Teamwork | Time Management

PROJECTS

DPS App - Debt Processing System

2022 – 2024

Java, Spring Boot, Spring Security, Spring Data JPA, MySQL, React.js, JWT, Google OAuth2, Two-Factor Authentication (2FA), Java Mail, Twilio, JUnit, Git

- Responsible for the development and maintenance of the **Debt Processing System (DPS App)**, a comprehensive platform for debt management and financial services.
- Designed and developed **RESTful APIs** using **Java Spring Boot** to handle secure debt management transactions with MySQL.
- Implemented the **User Registration module** with validation, authentication, and secure access using **Spring Security & JWT**.
- Developed a **Login with Google (OAuth2)** feature to provide secure third-party authentication.
- Built the **Debt Calculation module**, implementing business logic for interest computation, penalties, and repayment tracking.
- Designed the **Due Date Management module** to calculate due dates, generate alerts, and notify users of overdue payments.
- Integrated **SMS and Email notification services** (using Spring Boot mail & third-party SMS APIs) to send reminders, OTPs, and due date alerts.
- Implemented **Spring Data JPA/Hibernate** for ORM, optimized queries, and efficient database interactions.
- Ensured code quality with **JUnit & Mockito testing**, version control using **Git**, and Agile-based sprint collaboration.

Invoice Generation System

2022 – 2023

JavaScript (ES6+), Node.js, Express.js, JWT, Passport.js

- **Designed and developed RESTful APIs using Node.js and Express.js** to handle the full **invoice lifecycle operations** — creation, retrieval, update, and deletion.
- **Implemented business logic in the service layer** to calculate **totals, taxes, and discounts**, ensuring accurate and consistent invoice data.
- **Integrated MongoDB via Mongoose ODM** for flexible, schemaless document storage, enabling efficient handling of diverse invoice formats.

- **Conducted unit and integration testing using Jest and Supertest** to ensure high system reliability and maintainability.
- **Followed MVC architecture (Controller, Service, Model)** for better scalability and maintainability of the codebase.
- **Developed dynamic React.js components** for invoice creation and management, ensuring a responsive and user-friendly UI.
- **Performed API integration in React using Axios and Fetch API**, enabling seamless communication between frontend and backend.
- **Managed state and side effects with React Hooks (useState, useEffect, useContext)** to ensure smooth data flow across components.

Site Ranker Pro - Website Analytics & SEO Monitoring Tool

2021 – 2022

Tech Stack: React.js, Redux Toolkit, Node.js, Express.js, MongoDB, Chart.js, REST APIs.

- Developed a **full-stack SEO monitoring tool** to track website rankings, traffic analytics, and keyword performance.
- Built interactive **React.js dashboards** with Chart.js for visualizing keyword trends, ranking history, and website traffic metrics in real time.
- Integrated **Redux Toolkit** for state management, ensuring smooth data flow and consistent UI updates across analytics modules.
- Designed and implemented **RESTful APIs using Node.js** and Express.js for keyword tracking, site audits, and SEO score calculations.
- Connected **MongoDB via Mongoose** to store keyword history, ranking data, and audit results efficiently.
- Implemented cron jobs for automated keyword ranking checks and periodic SEO health reports.
- Ensured **responsive UI design** for seamless accessibility across desktop, tablet, and mobile devices.

 EDUCATION

Computer Science & Engineering

2016 – 2018

Dr. Babasaheb Ambedkar Marathwada University

Aurangabad

Diploma In Computer Science

2014 – 2015

M.I.T College Aurangabad

Aurangabad
